Global Gas Market Overview	6
An assessment of global gas reserves, supply and demand and the future growth potential of the international gas industry. As more stranded gas deposits become exploitable through advances in extraction and transportation technology, BMI evaluates long-term supply growth potential in the market. This is weighed against demand growth underpinned by the worldwide trend of shifting from oil- to gas-fired power stations, the growing use of gas in EOR processes and unconventional crude production and global efforts to reduce gas flaring.

Business Environment Ranking.....	8
BMI's updated and greatly expanded regional Business Environment scoring system, incorporating many more industry-specific elements and a more sophisticated approach to political and economic risk assessment. The enlarged scoring matrix is also broken down into Upstream and Downstream segments, providing a more detailed analysis of the growth outlook and market conditions for both major elements of the oil and gas industry.

Industry Forecast	15
An independent view of oil and natural gas reserves, supply and demand based on BMI's proprietary database. Comprises 23 indicators including production, consumption, value of gas and LNG exports/cost of imports in base case, high and low scenario	
This report has historic data from 2004 - 2007 and BMI forecast data from 2008 - 2011.	
The industry indicators and units for the industry forecast tables (Gas & LNG reports) are : Proven reserves, bn barrels, Oil production, 000b/d, Oil consumption, 000b/d, Oil refinery capacity, 000b/d (EIA/BMI Research), Oil exports, 000b/d (BMI Research), Oil price, US\$/bbl, OPEC basket, Value of petroleum exports, US\$m (BMI base case), Value of oil exports, US\$m (BMI base case), Value of oil exports at constant US\$50/bbl – US\$m, Value of oil exports at constant US\$100/bbl – US\$m, Value of petroleum exports at constant US\$50/bbl – US\$m, Value of petroleum exports at constant US\$100/bbl – US\$m, Refined petroleum products exports, 000b/d (BMI Research), Gas: proven reserves, tcm, Gas: production, bcm, Gas: consumption, bcm, Gas exports, bcm (BMI Research), Value of gas exports, US\$m (BMI base case), Value of gas exports at constant US\$50/bbl – US\$m, Value of gas exports at constant US\$100/bbl – US\$m, LNG exports, bcm, LNG price, US\$/mn btu, LNG revenues, US\$m (BMI Research)
